

Father Lopez Catholic High School Prayer

Thomas Makowski, Class of 2006

Dear Lord,

*We ask that you bless the community of
Father Lopez Catholic High School.*

Help us to uphold the virtues instilled

Here in your name,

That we may grow in knowledge and faith,

So that we may better serve you

In all that we do.

We ask this through Christ our Lord.

Amen.

A Welcome from the Principal

Good evening, and welcome. It is my great pleasure to welcome each of you to what has traditionally become a very special night for Father Lopez Catholic High School. For 28 years, the school has joined in a celebration of the students, faculty, staff and community of Lopez through Celebrate. Over the years, this event has grown into one of our most important fundraisers. Last year, for instance, more than \$50,000 was raised for the good of our school. The funds raised through this event benefit the school's operating budget, student financial assistance efforts, and our community outreach programs. Without the funds raised in this very important event and other fundraising events at our school, the annual tuition would be significantly higher.

Please take the time to look over the auction items that are available this evening, and remember that your attendance here tonight, as well as your participation in our auctions and raffles, will benefit Lopez and our students. Each year, we enjoy wonderful food, great music and silent and live auctions that are not to be missed. You are helping to continue a wonderful and important tradition in your participation.

I would be remiss if I did not thank everyone involved in the planning tonight and the wonderful Celebrate Volunteer Committee, our culinary students, Chef Ray, and our senior student escorts. We could not present this event without the significant help and support of our school family and our local businesses and community leaders. We appreciate very much the chance to care for *your* children – tomorrow's leaders – as part of our larger Lopez family.

Sincerely,
George Pressey, Principal

FUND AN ITEM:

Be sure to stop by and test out our Fund an Item opportunity for this year. Lopez has decided to focus the fund an item efforts on math software that specifically customizes lessons to a student’s needs in basic math skills, algebra and geometry. Students will move from one lesson to the next after having mastered a given topic. The faculty collectively determined that this would be a great item to have and will help improve our students’ experiences. We hope to raise \$2,500 + from this effort to enable as many students to be able to use this software as possible.
